```

errors	Config Rule Errors[]	List of error messages from the configuration rule evaluation, if any.	Small, 67.0	67.0
messageRules	Message Rules[]	List of message rules that were evaluated during configuration.	Small, 67.0	67.0
product Recommendation Rules	Product Recommendation Rules[]	List of product recommendation rules that were evaluated during configuration.	Small, 67.0	67.0
success	Boolean	Indicates whether the API request is successful (true) or not (false).	Small, 67.0	67.0
transaction ContextId	String	ID of the transaction context for this configuration rule evaluation.	Small, 67.0	67.0
visibilityRules	Visibility Rules[]	List of visibility rules that were evaluated during configuration.	Small, 67.0	67.0

- [Configuration Rule Errors](#)
Output representation of the error details, if applicable, when you run config rules.
- [Message Rules](#)
Output representation of the details of the message rules.
- [Product Recommendation Rules](#)
Output representation of the details of the product recommendation rules.
- [Visibility Rules](#)
Output representation of the details of the visibility rules.
